Trade Bulletin & Price List

November 1932

***YOU CAN GET BUSINESS TODAY BY
CONCENTRATING ON KNOWN MARKETS!***

We in the World of Flowers should take selling lessons from the wise merchant who makes it his business to anticipate demand and who makes a hard drive for sales while the market is in a receptive mood. Intensive concentration is the keynote!

Why not try pushing the items that you know are sellable and that are the most likely to sell. You know that some money will be spent and the man on the job will get the business!
